Electric Motors should be of reputed brand, three phases with optimum output power suitable for smooth functioning, maximum production with minimum power consumption provided with starters and safety features with minimum warranty of one year. Machinery should be capable of producing the required quality and quantity prescribed. Specific details of the machineries developed by adopting suitable technologies for quality improvement, output and reduced operational cost can be submitted on separate sheet.

The above specifications are minimum requirements. The tenderer shall offer the Machinery for Fiber Extraction, Garden & Decorative Articles making, and Coir Yarn & Mat making strictly meeting the above requirements or with better specifications. Any accessories/parts/components not specifically stated in the specifications but which are necessary for satisfactory operation of Machinery for manufacturing of Fiber Extraction, Garden & Decorative Articles making, Coir Yarn & Mat making shall be deemed to be included in the scope of supply.

COMPLIANCE TO THE TECHNICAL SPECIFICATIONS

The tenderers should specify the specifications of all the tendered items to be supplied. The compliance report should be enclosed along with Technical Bid. Specification of offered Machineries for Manufacture of Fiber Extraction, Garden & Decorative Articles making, Coir Yarn & Mat making is to be written clearly in the column of “OFFERED SPECIFICATIONS” in the table given below. Offers without clear specifications on the said column will be treated as non-responsive and rejected.
